Welcome to LottaWin

The LottaWin system is easy to understand and simple to explain in these straightforward steps. Here are some things that make us very different.

1. We allocate 96% of our ticket sales to the prize and matching prize fund to our members. Normal lotteries only allocate 50% to their prize fund.
2. We allow all our members to refer others to be able to buy LottaWin tickets, in doing so you can get a match of their winnings.
3. We allow our Players and Super Players to refer others to play the LottaWin Game and share in the winnings of the tickets being sold from many levels.
4. We use the Canadian Lottery draw numbers on a weekly basis; giving us complete transparency in how we select the winning numbers.
5. We manage LottaWin tickets and winnings online; this means that players cannot lose their tickets. Winnings are automatically calculated and allocated to their online account after the draw.

As a member of LottaWin, you will have access to comprehensive support through our network of players and corporate office consisting of multi-language customer support and reports.

Ethical Commitment

LottaWin is committed to operating ethically and transparently. We uphold our ethical standards by ensuring the accuracy and impartiality of the information we provide. We foster fairness and equity, protect privacy and confidentiality.

We believe that operating ethically is essential to our success as an organization and supports our ability to be focused on our mission.

In the end, we will always work in the long-term best interest of our members.

Winners Plan Overview

LottaWin Winners Plan is designed to be easy to learn, easy to explain and statistically viable for our members. There are two types of LottaWin members. A member can be either a Player or a Super Player.

Benefits of being a LottaWin Player

All players can purchase and play unlimited number of games per week, can refer unlimited number of other players and benefit by getting a 5% matching win from all the players that they personally refer.

Benefits of being a LottaWin Super Player

A Super Player has the additional advantage of being able to get matching wins from many more players in their Winners Table and in their Referral Structure.

A player who has not previously upgraded to Super Player may upgrade to become a Super Player by agreeing to the additional Terms and Conditions in LottaWin and paying the onetime upgrade fee of €60. Most of this is paid out to other Super Players as commission as shown in the table below.

Amount	Paid To	Qualification
€10	Sponsor (First Active Super Player)	Active Super Player
€10	Level 2 Sponsor	Active Super Player
€10	Level 3 Sponsor	Active Bronze Player
€10	Level 4 Sponsor	Active Silver Player
€10	Level 5 Sponsor	Active Gold Player

The advantage of being a Super Player is that you are not only able to play LottaWin personally, but you also receive a matching win from the people that you refer and qualifying people that are referred in the Winners Table.

As a Super Player, you will be placed on top of your own Winners Table. You will be able to get a 5% matching win on the winnings of any Player or Super Player that are placed in your table.

Each position on the Winners Table has a maximum of two positions directly under that can be filled by either you or other Super Players in the structure. Once these two positions are filled, any new Super Player will be placed on the next line. This means that there is a maximum number of Super Players on each level in your Winners Table. Each Super Player can refer unlimited number of players and each player can play unlimited number of games per week. You can match prizes down eleven levels as shown in the table below.

Winners Table

LottaWin Game

LottaWin Game is slightly different from playing a standard lottery. You select five numbers and the system will allow any other number as your final sixth number.

This is how the game works in practice. You choose five numbers out of 49 possible numbers, not six numbers like the standard lottery.

1. Match five numbers against any of the six main balls drawn to win a share of the Jackpot.
2. Match four numbers against any of the six main balls drawn and get €1200.
3. Match three numbers against any of the six main balls drawn and get €100.
4. Match two numbers against any of the six main balls drawn and get €2.

LottaWin game is like playing 44 tickets in a syndicate with 43 other players. Since you are sharing the jackpot win with 43 other players in the system, the jackpot prize will also be divided by 44. By sharing the win like this, you get much more improved chances to win a prize.

In addition to paying the winner, we also pay the person who referred the winner and many others in the Referral Structure and the Winners Table. For more information, please read about the Benefits of being a Super Player.

We use the weekly Canadian Lottery draw numbers for our winning numbers. This enables us to be transparent and ensure that anyone can verify the numbers directly on a website that we cannot control.

LottaWin Game Ticket

The price of a weekly lotto ticket is €2.50. From this amount, €0.50 is paid as commission and the remainder is allocated to the prize fund.

The commission is paid according to the table below.

Amount	Paid To	Qualification
20% (€0.10)	Sponsor (First Active Super Player)	Active Super Player
20% (€0.10)	Level 2 Sponsor	Active Super Player
20% (€0.10)	Level 3 Sponsor	Active Bronze Player
20% (€0.10)	Level 4 Sponsor	Active Silver Player
20% (€0.10)	Level 5 Sponsor	Active Gold Player

Prize Amounts

The jackpot amount is calculated based on a number of variables including the prize fund accumulated so far, the projected ticket sales and the time elapsed since the previous Jackpot win. This amount is regularly updated and displayed on the website. We expect the minimum Weekly Jackpot to be in excess of €1,050,000.

The other prizes are as shown in the table below.

Match	Full Syndicate Win	Your Share of the Win	Total Matching Win	Share of Matching Win
2 Ball Win	€ 88	€ 2	-	-
3 Ball Win	€ 4,400	€ 100	€ 100	€ 5
4 Ball Win	€ 52,800	€ 1,200	€ 1,200	€ 60
5 Ball Win	Jackpot Amount	Jackpot / 44	Jackpot / 44	Jackpot / 880
